

SEEKING AN AUDIT MASTER FELLOW

We're looking for fellows who want to work hard, have fun, and make history!

Our Master-level fellowship program is an educational opportunity providing fellows with a high quality, challenging, exciting, and fun experience in local government. Fellows will dive into higher level, impactful work that will expand their understanding of an elected City Auditor's office and the complexities of a large California municipality.

The goal of this fellowship program is to provide an educational internship for students or professionals seeking to gain audit experience in a local government auditing department and identify future talent for our Office.

About the Oakland City Auditor's Office

The City Auditor works for, and reports to, the residents of Oakland. The Auditor is responsible for keeping Oakland's government transparent and accountable by conducting performance audits of local government services and investigating reports of waste, fraud, abuse and mismanagement.

The Office of the City Auditor's mission is to serve as a model performance-auditing organization that delivers in-depth, unbiased and meaningful results to the citizens of Oakland. We do this by identifying and auditing the areas of government in need of improvement. Our office conducts audits of all areas of City government, provides analysis of upcoming City legislation and manages the City's Whistleblower Hotline.
